PROGRAM FLOW

Adding

ETHICS

to the **Ether**

of **Ai**

2 TO 6PM 29TH

FEB 2024

By

EtherWire.Ai

FEAi

A Dialogue on "Raising Awareness & Building Machine Consciousness"

Launch of "For Ethical Ai Community"

29th Feb Mumbai

Event Theme

If AI is deemed to replace humans in the workplace and take over jobs, it should also be held accountable by the same standards and ethics that restrict professionals.

Envisioning a world where AI empowers humanity instead of exploiting it, where algorithms align with our values and do not exploit vulnerabilities – this is the future that FEAi (www.forethicalai.com) is diligently working towards.
